T8 EXTRA

A unique concentrate with the increased content of fir cell sap

Using the concentrate you can make a fragrant vitamin energy drink with an extraordinary fir flavor. It is an ideal choice for people leading an active life, for athletes and fitness fans.

Due to the double content of fir cell sap the drink has enhanced antioxidant properties. It makes you more vigorous and enduring, reduces the time of recovery after physical exercise and helps to cope with oxidative stress which is the main cause of fatigue.

- Potent antioxidant properties of the iron-maltol complex activate the body's natural defense against the urban environment.
 - Bio-available iron saturates the tissues with oxygen.
 - Polyprenols stimulate the energy exchange and launch the body rejuvenation processes at the cellular level.
 - Original technology of the raw materials gentle treatment allows to preserve all the healthy natural nutrients that fir needles contain.
 - Just let the concentrate dissolve in half a glass of water or any other liquid and enjoy the extraordinary taiga flavour!
-
- Recovery and optimization of the energy exchange, increasing the natural energy potential and combating the age-related energy shifts.
 - Strengthening natural antioxidant body defenses.
 - Improvement of mental and physical performance and memory.
 - Protection against the age-related weakening of intellectual abilities.
 - Strengthening the nervous system, protection from stress and overwork.
 - Recovery and normalization of liver function.

Strengthening of the heart muscle, normalization of its contractile activity, protection from heart attacks. Activation of the skin regeneration processes, improvement of its appearance and internal condition. Hair and nail improvement, stimulation of their growth. Normalization of hormones, improvement of the reproductive function. Excellent health and a great mood every day.

T8 BLEND

A combination of SibXP and the juice of the best six taiga berries

Youth cell cocktail T8 Blend is a product that gives you vigour, great mood and incomparable pleasure from the rich bouquet of taste and aroma! It is a perfect choice for the whole family.

The basis of the cocktail – SibXP Complex is supplemented and enhanced by the best six taiga berry juices:

- Honeysuckle strengthens the immune system, improves digestion, cleanses the body of slag and toxins.
- Bilberries protect from free radicals, improve our eyesight and memory.
- Sea buckthorn combats stress, bad mood and fatigue.
- Cranberries tone you up, improve our mental and physical activity.
- Blueberries slow the cell aging process and conduce skin regeneration.
- Cowberries strengthen our blood vessels and improve metabolism.

Direct extraction and gentle treatment help to preserve the authentic taste and aroma of the berries as well as all the valuable nutrients that they contain.

Effect T8 Blend

- Restores energy exchange, boosting the formation of energy in cells.
- Improves mental and physical performance and memory.
- Combats stress, betters our mood, protects from depression.
- Enhances natural antioxidant defenses of our body and slows the aging process.
- Improves the appearance and the internal condition of the skin and hair, stimulates the regeneration of tissues, combats the age-related changes.
- Strengthens the heart and blood vessels, normalizes functioning of the liver.
- Strengthens the nervous system, protects nerve cells from damage.
- Strengthens the immune system, helps fight seasonal colds and infectious diseases.
- Improves hormones and the reproductive function.

Drink the Youth cell cocktail T8 Blend undiluted or slightly diluted in water, add to your tea or other drinks, mix it with fermented dairy products, such as cottage cheese, kefir, yoghurt, turning them into fragrant and healthy delicacies with the extraordinary taiga taste. Experiment with flavours and simply enjoy!

T8 SPLASH

SibXPComplex + organic elements for the fast activation. Your energy and freshness splash!

Tayga8 in a fresh mode:

- Instant breath refreshing by menthol;
- Freshness and vivacity every minute by lemongrass and ginseng;
- Fresh, stylish packaging;
- Restoration and optimization of energy exchange by adapted for use spray form of SibXP®Complex.

Lemongrass. A "Berry of five tastes" from Far East, a plant with a delicate lemon taste quickly restores vital energy, increases the endurance of the body, tones and refreshes.

Ginseng. The famous "root of life", which returns youth and cheerfulness increases working capacity, reduces fatigue, activates the nervous system.

Menthol. Obtained from peppermint essential oil, it quickly and effectively freshens breath. Pleasant cool menthol perfectly combined with the tart conifer taste of Tayga8.

Polyprenols in the SibXP Complex. Unique natural bioregulators from pine needles of Siberian trees increase the production of energy by each cell, restore the cellular structure, normalize the work of all organs and systems.

Cellular fir juice in SibXP Complex. Intracellular fluid rich in useful substances from fresh fir legs increases the energy potential of cells, has a healing effect on the mucous membranes of the oral cavity.

Mode of application:

Rotate the lid of the bottle and spray under the tongue 2-3 times with the sprayer.

Use 3-5 times a day. 10 clicks on the nebulizer provide the body with a full day portion of polyprenols.

Contraindications:

- Individual intolerance of the components of the formulation.
- Pregnancy, lactation, age to 18 years, tendency to hypertension.

T8 STONE

FulXP Complex. Stone health from the heart of taiga.

What is this?

T8 Stone is a new generation product based on humic complex that enriches cells from inside with a complex of minerals, vitamins and amino acids, balanced by Nature itself. Salts of humic, hymatomelanican and fulvic acids remove toxins from the cells, normalize microflora and metabolism at the cellular level and increase the absorption of nutrients by the cells, as well as their permeability.

T8 Stone is:

- A natural complex for the saturation of cells (minerals, vitamins and amino acids)
- Optimization of metabolism at the cellular level
- Efficient elimination of toxins and cleansing of body cells
- Control of pathogenic microflora and affected cells
- Active support of the immune system and strengthening of the body
- Increased digestibility of nutrients

In addition, the effect of the T8 Stone becomes even stronger due to silver ions that have a health promoting effect for the whole body.

The silver ions can quickly penetrate into the cell, where they control the enzymatic systems of microorganisms. This explains the bactericidal, antibacterial and healing action of silver. Also, ion silver helps boost the body's defenses and to cope easier with colds; it increases physical efficiency.

To make a truly high-quality product, scientists of the Novosibirsk Academic Town (Akademgorodok) created a unique product line, which is practically unique and is used exclusively for the production of T8 Stone.

The unique composition of the T8 Stone is protected by the exclusive FulXP Complex formula.

How do you use it?

2 ml of the concentrate provide to the body a full day portion of humic complex microelements. We recommend to take 1 ml of the T8 Stone concentrate twice a day, in the morning and in the evening.

Just dissolve T8 Stone in a glass of water or any other liquid and recharge your body with energy of mountain taiga minerals!

Course of administration: 25 days, after which it is recommended to take a break for a week.

Attention! Do not use tap water! To dissolve the product, it is recommended that you use bottled, filtered or boiled water.

Composition:

A complex of salts of humic, hymatomelanican and fulvic acids, nitrogen-sour silver (Ag+), distilled water.

The complex of humic acid salts includes (FulXP Complex):

Salts of humican and ulmic acids; Salts of fulvic acids; Hymatomelanican acids; Nitrogen-sour silver (Ag+); Total nitrogen (N); Phosphorus (P); Potassium (K); Total sodium (Na); Calcium (Ca); Magnesium (Mg); Iron (Fe); Manganese (Mn); Zinc (Zn); Copper (Cu).

T8 TEO

Do you want to know a secret of beauty and fitness? Try our new product T8 TEO. T8 TEO is your personal assistant in weight loss and beautiful body issues! - Dissolve 15 g of the powder in 50 ml of room temperature water (below 20°C)
- Mix the mask until it has the consistency of thick cream
- Apply a layer of 2-3 mm
- Remove after 30 minutes in one movement upward

T8 OMO DEUS 30 SECONDS

Serum T8 OMO DEUS. An integrated approach to AntiAge products inside and out.

This restoring and strengthening serum is a concentrated cosmetic product that moisturizes and nourishes the skin and lifts your face's contour.

Ingredients: Butylene glycol, Glycerin, Niacinamide, Polysorbate 20, Urea, Pullulan, Cellulose Gum, Carrageenan, Ceratonia siliqua gum, Sucrose, Sodium hyaluronate, Menthyl PCA, Lactamide MEA, Menthane carboxamide, Ethylpyridine, Hinokitiol, SibXP Complex, Fragrance, Disodium EDTA.

Storage: store at a temperature below +25°C, protect from sunlight.

Shelf Life: 36 months.

Suggested Use:

- Cleanse the skin of your face and neck.
- Apply the serum and massage it gently into the skin of your face and neck.
- Enjoy the effect.

Action:

- Instant lifting effect
- Regulates cellular metabolism
- Improves elasticity of the skin
- Smooths the texture of the skin
- Synthesizes collagen
- Moisturizes
- Brightens

This product is good for everyday usage.

How does it work?

Five powerful ingredients:

- Niacinamide is one of the three most effective ingredients in cosmetics. It is responsible for the stimulation of collagen synthesis and improvement of skin barrier functions. It helps to reduce transepidermal water loss through the epidermis and reduces pigmentation, improves elasticity, soothes the skin.
- Pullulan effectively smooths age-related wrinkles, keeps the moisture.
- Carrageenan stimulates cell regeneration, soothes the skin and has a light bactericidal effect. Helps to detoxify the organism and has an anti-oxidative effect.
- Hinokitiol is one of the most powerful bactericidal components. Protects the skin from the aggressive environment.
- SibXP Complex is an innovative complex. It is the combination of the three ingredients: polyphenols, fir cell juice and CGNC (Conifer Green Needle Complex). Restores damaged cells, eliminates free radicals, provides cells with oxygen, tones.
